**TRADE CONDITIONS:** Careful study of the Spring trade on field seeds to date in this section indicates volume of business transacted about normal. A surplus of stocks of some items will of course be carried over as usual, but no burdensome stocks remain. The outlook for late Spring planting is better than usual and already some advance in prices has been noted, reflecting the early demand for such goods.

**QUICK SHIPMENT:** Nearly everyone wants quick delivery at this particular season and we are giving the best of our facilities and services in carrying a wide range of stocks ready for instant shipment. For those who prefer not to carry over surplus stocks, we are glad to fill orders as often as required; daily if necessary.

**TIMOTHY:** Market has been in a rut for some time; little interest shown during the Spring season. Dealers will soon be thinking of summer requirements and prices look reasonable as compared with other field seeds.

**RED CLOVER:** Some surplus of French grown seed will be carried over, but will probably all be wanted for the summer demand. Stocks Domestic seed remaining are very small.

**ALFALFA:** Demand has been above normal. For several years we have specialized in Certified stock and them to sow more Alfalfa. Farmers should be encouraged to use Cer-

tified stock again this year account of the reasonable prices prevailing.

**ALSYKE:** Stocks are small; the finest qualities are almost exhausted.

**HAIRY VETCH AND CRIMSON CLOVER:** Market strong on both items. Price on Vetch reflects firm condition of the market; price on Crimson remains quite attractive.

**SOJA BEANS:** A large increase in demand over last year has already been experienced and prices are rising. We suggest covering early on requirements, as far as it is possible to do so.

**SEED POTATOES:** Rapid advance in the market has been halted and prices have recently made some decline. Note quotations below.

**LAWN SEED:** Please note convenient packages in which our Lawn seed is packed. Demand for this item will be good for some time to come.

**CHICK FEED:** Now in season, note price in middle column.
